SUMMARY

I work in systems development and have previous experience in the area. I studied computer science at Associação Cedro do Líbano and I am familiar with the Microsoft Office package. I have good communication skills with clients and colleagues.

I am currently studying Systems Development at Faculdade Anhanguera and I am committed to delivering quality projects.

I have knowledge of several programming languages and frameworks, in addition to having worked as a freelancer for a year.

My English level is intermediate, acquired through IPNG. I have a life project to grow in life and career, move up in the ranks, and travel to other countries. Intermediate English, native Portuguese, basic German
